

SUNRISE- Schools University 'N' (and) Resources In the Sciences and Engineering

Announces Call for Graduate Fellowship Applications

The objective of this project is to build a unique model of collaboration among elementary and middle schools, school division administration, and GMU to foster systemic efforts in implementing Information Technology (IT) rich Science, Technology, Engineering and Mathematics (STEM) content-knowledge into grades 4-6 by graduate Fellows. The Fellowship awards \$30,000 per year in stipend and \$10,500 in cost of education (tuition, health insurance, and books)

Application Final Deadline April 30th 2011
Fellowship start date: July 1st 2011
